B 2.9 DRAFT TRANQUILITY POSITION STATEMENT

The Board received a report detailing a draft Tranquillity Statement with the recommendation of approval by the Board.

The Planning and Landscape Officer introduced the item and explained that following the Board’s adoption of a position statement for Dark Skies at the Board Meeting in March 2019, a position statement on tranquillity would also be well-supported and had already received positive feedback from various local authorities; Historic England and Natural England.

A Member commented that whilst she was pleased to see the role of Board Members outlined within the Statement, she expressed that she found it difficult that no background information had been included regarding the work of dark skies by South Gloucestershire and Bath and North East Somerset Councils. She also commented that a forward policy for dark skies had been agreed at the March 2019 Executive Meeting and enquired as to the progress in relation to this.

The Land Management Officer responded that the dark skies position statement had been adopted by the Board at its March 2019 Meeting. He added that he was aware of the work in Bath and the surrounding area in relation to dark skies and confirmed that he also received invitations to attend their respective meetings.

The Director further explained that the recent dark skies event at Temple Guiting had been well attended and that other aspirations of the Board in regard to dark skies had not progressed as far as had been desired owing to the fact that only two local authorities had agreed to financial contributions. He reported that consequently, only a small level of equipment had been able to be purchased by the Board.

Various Local Authority Members extended their thanks to the Officer for his work on the Statement and explained how the document had been given consideration by their respective authorities in regard to recent decisions made.

Another Member highlighted that reference to the Statement ‘not being targeted at temporary and/or infrequent work-day noise’ could be misunderstood in regard to licensing applications and he requested that specific reference be made to temporary licensed events to avoid this.

It was also suggested that the Statement and its relation to health and well-being should be circulated to various public health offices for their information, in addition to local authorities and town and parish councils.

RESOLVED that the Board adopt the Tranquillity Position Statement.
