INTRODUCTION

1. The Work Programme 2020/21 was developed by focusing on the Year One priorities of the Board's Business Plan Framework 2020-23.
2. It is clear that a considerable amount of the planned activity has been impacted by the Covid-19 situation, to varying levels.
3. However, it should also be noted that there has been significant and positive progress in many of the areas, highlighting the team's continued commitment to their roles and responsibilities over the past 12 months.
